Dear Sir.

as it stand now I am thinking the problem over  
of course I didn't have time to talk to you as  
I wish to so now I am dropping you a line or ~~not~~  
that as this leave me well and getting along ok.

Now about coming east what would you  
think about it as I were telling the days in  
Canton I were doing ok for the time being so  
if you have any thing better you know I will  
take it that is according to how the expenses  
stand but if you offer me something good I have got  
to take it I would have been with publicly if you or I  
would have know one another address but it can still be  
the same with me that depend on how you feel

Now about Jethro I believe if I would leave  
he will do the same so you can write me and let me  
know every thing but when ever you do write don't have  
the signature of your ball club on the envelope so  
I will close until I hear from you answer me to
